

Instructions for Students taking the Duolingo English Test

The Duolingo English Test presents an entirely different approach to testing because you can take it at home from your own computer. There are no test centers and no appointments. The cost is \$49 USD and you can take the online test, anytime. It takes about 45 minutes, and you receive results within two days.

Although your students will see the testing instructions before starting, you may want to reinforce that:

- They must have a government issued photo ID- the name you enter for the test must match the name on your passport or identity document.
- Be in a quiet, well-lit room (Especially important to note this if your students will be taking it in a dorm room. They should be in a room alone; if someone enters the room and talks to you, your test will not be certified.)
- Have at least 45 minutes of free time
- Have a reliable internet connection
- Have a computer with a camera and microphone
- Keep your eyes on the screen all the time do not look away or your test will not be certified.
- Follow all instructions completely.
